Product/Type:

US Series LED High Bay

US Series fixtures provide a combination of superior quality, high reliability, and unmatched lumen maintenance and efficacy performance.

The fixtures are designed for outstanding thermal management at up to 149°F (65°C) ambient temperatures

Applications: Commercial and Industrial Facilities, Distribution Centers, Indoor Sports Facilities/Gymnasiums, Manufacturing Facilities, and Warehouses

Features & Specifications

Environment: UL Dry & Damp Rated

Ambient Temperature: -40 to 140°F (-40 to 60°C) ^{29, 30}

High Ambient Option Range: -40 to 149°F (-40 to 65°C) ^{1, 2, 12}

LED Driver Access: LED Driver / raceway is enclosed and hinged, opening over 100° for hands-free operation, easy access, and quick wiring.

Lenses: Clear or Frosted acrylic standard. Polycarbonate option available upon request ^{1, 2}

Warranty: Standard: 10 year
High Ambient: 5 year

CCT: 4000K/5000K standard ^{3, 4}

Other CCT options available upon request ^{1, 2}

CRI: 80 CRI ^{1, 2}

Wire Guards: Optional factory installed wire guards for fixture protection. ^{1, 2}

Housing: Combination aluminum and galvanized steel. ³²

Mounting: Fixture is cable ready (CRM) for suspension mounting or 3/4" conduit knockout on top side for pendant mount. Fixture has two cable ready holes on each end of fixture. ¹⁸

Wiring: Flying leads inside raceway standard with spring-lock connectors.

Cord & Plug: Optional ^{1, 2, 17}

Packaging: Fixtures individually boxed.

Power & Control

Power Input: 100-277VAC @50/60Hz. 480VAC option available upon request. ^{1, 2, 15, 27}

Dimming: 0-10VDC Standard. Capable of dimming down to 10%.

System Power Factor: Greater than 0.9% (0.96-0.99 Typical)

Total Harmonic Distortion: < 20% (10% typical)

Surge Protection: Standard 6kV drivers. Additional surge protection available. ^{1, 2, 5, 8, 17}

Occupancy Sensors: Optional - Factory installed ^{1, 2, 16, 17, 19}

Bluetooth Mesh: Optional - Factory installed. ^{1, 2, 17, 20}

Occupancy sensor controls individual or groups of selected fixtures via mesh network

Emergency Backup: 20 watt backup with LiFePO4 batteries offers at least 10% of fixture output for 90 minutes ^{1, 2, 6, 7, 9, 12, 13, 14, 17, 26, 27, 31, 33}

Ordering Guide

To order a standard stocked product all that is needed are the first four options and it will be built to the default configuration. For example, if a US24000-5K-F were ordered then: CRI = 80, Voltage = LV, Mounting = CRM, No occupancy sensor, No cord or plug, and no other options would be included. All other options are there to allow full customization required for the project. For convenience the default options are included in the boxes below.

Example part number for non-standard fixture: US14000 - 5K - F - 80 - LV - CRM - NONE - NONE - NONE - NONE

	480V, 20A Twist Lock (L8-20P)	CL820	10CL820	15CL820

Other cord and plug options available upon request ^{1, 2, 17}

Note: Dimming is a standard feature on all models. Separate option not necessary.

Options

(Select One if applicable, if none, leave blank and go to High Ambient)

- EMB** ^{1, 2, 6, 7, 9, 13, 14, 17}
Emergency Backup for 120-277 VAC
- EMB4** ^{1, 2, 6, 7, 9, 13, 14, 17, 26, 27}
Emergency Backup for 347-480 VAC
- SRG** ^{1, 2, 5, 8, 17}
20kA surge protector, fails to off,
120-277 VAC
- SRG4** ^{1, 2, 5, 8, 17}
20kA surge protector, fails to off,
347-480 VAC
- WG** ^{1, 2}
Fixture wire guard
- HK** ^{1, 2}
Kit includes two 60" airplane cables
and two 36" cross-cable grippers
with paddle ends

High Ambient

(Select One if applicable, if none, leave blank)

- HA** ^{1, 2, 12}
Offers -40°F to 149°F
(-40°C to 65°C)

Specification Sheet - LED High Bay

Project Name:

Date:

Product/Type:

Footnotes:

1. Optional add-on. See price list for pricing.
2. Consult factory for lead times.
3. Consult factory for other CCT options.
4. ~~4000K CCT is not DLC and IES qualified for BAL or US Series.~~
5. SRG (20kA protection) is an option for 120-277 VAC fixtures for Fail to OFF. SRG4 (20kA protection) is an option for 347-480 VAC fixtures for Fail to OFF.
6. 20W power supply, 15-55 VDC, 380mA output for 90 minutes LiFePO4 battery. LiFePO4 batteries have a lifespan up to 10 times longer than traditional lead acid batteries. This is due to lower resistance and they charge at a faster rate.
7. 5-year warranty on Emergency Backup Batteries (EMB and EMB4)
8. SRG and SRG4 surge protection product compliant to IEEE C62.41.2 Location C high and US Department of Energy MSS:C Model Specification.
9. Emergency Backup Battery (EMB and EMB4) comes with LED indication and Test Switch for self-diagnostic test.
10. LM80 tests and reports are performed in accordance to IESNA standards.
11. All cords are 18/3 AWG, 600V, black. Consult factory for other options.
12. Consult factory for additional product specifications on High Ambient fixtures. The dimensions for the High Ambient fixtures are as follows:
 - US14000 - 13" W x 18" L x 2.15" H
 - US18000 - 13" W x 24" L x 2.15" H
 - US24000 - 13" W x 24" L x 2.15" H
 - US48000 - 13" W x 48" L x 2.15" H
13. Weight changes when Emergency Backup Battery (EMB and EMB4) is added.
14. EMB and EMB4 has ambient temperature range between 0°C to 55°C (32°F to 131°F).
15. US14000, US18000, US24000 with 480 VAC input require 250 watt transformer. US48000 & US60000 with 480 VAC input require two 250 watt transformers.
16. IR Configuration Tool not required.
17. Consult factory for orders requiring OCC, cable + plugs, EMB, EMB4, SRG, SRG4 and HA may have extended lead times.
18. Optional Cable Hanging Kit ordered separately. Refer to Accessories.
19. IR Configuration Tool required for field set-up from up to 40 ft. away. Refer to Accessories.
20. Field set-up from iOS or Android device from up to 400 ft. away.
21. 120-277 VAC only.
22. PEN100 adds 1.90" to the height of fixtures.
23. PEN200 adds 4.00" to the height of fixture.
24. HV is standard option for 347-480 VAC on BAL/US14000, BAL/US18000, BAL/US24000.
25. HV1 is standard option for 347-480 VAC on BAL/US48000, US60000.
26. EMB4 requires additional enclosure mounted to top of fixture to contain the necessary transformers.
27. EMB and EMB4 will only light one side of a BAL/US48000 fixture, other models will have both sides lit.
28. US14000, US48000, and US60000 are unlisted in the DLC QPL as of this document revision.
29. US18000 and US24000 Model Dimensions are 13"W x 18"L x 2.15"H
30. US24000 ambient range is between -40°C to 55°C (-40°F to 131°F)

WARNING - INSTALLATION & SECONDARY RETENTION. Use of any USI Technologies products without proper installation and periodic inspections could cause severe injury or death. USI Technologies recommends that all installations should use secondary retention / netting where applicable. It is the exclusive responsibility of the contractor, installer and/or end-user to determine the suitability of the product for its intended application and ensure that the product is safely installed and in compliance with all applicable laws and regulations. To the extent permissible under applicable laws, USI Technologies disclaims all liability for personal injury and/or other damage resulting from any dislodging or other dislocation of its products.
